DEDICATED STUDENT, RESEARCHER, VOLUNTARY TEACHER

I am a STEM student with a great passion for scientific research and assist in spreading the benefits to society and contributing to the understanding of life. I am currently looking for any opportunity to conduct research, wet or dry labs, or work as an assistant to scientific researchers in order to learn more about the field of research and biology. I also would like to work in the Biotechnology industry in order to be a part of helping researchers and clients through new and innovative technologies.

PCR, DNA Barcoding, Serial Dilutions, Gel Electrophoresis, WQI Testing ▪ Chemical and Enzymatic Reactions ▪ Leadership ▪ JAVA programming ▪ MS-Office ▪ Google Docs ▪ Calculus ▪ Statistics ▪ Quick Learning ▪ Strong Written and Oral Communications ▪ Dedicated and Hard working ▪

COURSES AND EXPERIENCE

- National Student Leadership Conference, University of California, Berkeley, CA** **2017**
Attended a 10 day Course in Biotechnology, focused on developing leadership skills. I was introduced to several wet lab features and Bionic Design and Roboroach. Created and presented an incubator project. Met with several guest speakers from biotechnology companies and universities that gave lectures on leadership, career planning, and biotechnology.
- 1 FULL WEEK, OVERNIGHT
- Web Design and Photography Course at iD Tech camps, Princeton, NJ** **2012**
Attended a creative and interactive course and learned the intricacies of web design. Obtained critical skills in User Experience Design and Photography. Learned photo editing and created websites.
